| TITLE: Identifying and Protecting PHI | | |

| | |
|---------------------|--|
| Purpose: | This document describes the circumstances under which TMC Health (TMCH) identifies, treats, and handles Protected Health Information (PHI). |
| Definitions: | <p><u>Access</u>: The ability or the means necessary to search, view, read, write, modify, or otherwise interact with data or information contained in a patient's medical record. Access includes activity recorded in such a way that the time reviewed, time edited, and content reviewed, added, edited, or modified is recorded as part of an access log.</p> <p><u>Authorization</u>: Permission from the patient or patient's legally authorized representative to use or disclose protected health information to an individual or entity for purposes other than treatment, payment, healthcare operations, or those allowed by law.</p> <p><u>Covered Entity</u>: Health plans, health care clearinghouses, or health care providers who electronically transmit any health information in connection with transactions for which the Department of Health and Human Services (HHS) has adopted standards.</p> <p><u>Protected Health Information (PHI)</u>: Any information, including payment information, whether oral or recorded, transmitted or retained in any form or medium, including demographic information collected from an individual, that:</p> <ul style="list-style-type: none"> • Is created or received by TMCH; • Relates to the past, present, or future physical or mental health or condition of an individual; the provision of health care to an individual; or the past, present, or future payment for the provision of health care to an individual; and • Identifies the individual, or with respect to which there is reasonable basis to believe the information can be used to identify the individual. <p><u>Workforce Member</u>: Employees, volunteers, trainees or other persons whose conduct is under the direct control of TMCH, whether or not the person is paid by TMCH.</p> |

| Applicability: | <p>TMC Health: TMC Hospital Main and TMC Hospital at Rincon, including all inpatient and outpatient departments, Peppi's House – TMC Hospice, TMC Integrative Pain Clinic, and TMC Wound Care Center; TMC Medical Network and TMCOne, including all ambulatory primary and specialty care clinics, TMC Urgent Care – Rincon, and TMC Urgent Care – Wyatt; Benson Hospital, including Benson Hospital Rehabilitation, Benson Family Health Care Clinic, Benson San Pedro Clinic, and Vail Valley Family HealthCare; Northern Cochise Community Hospital, including Sulphur Springs Medical Center and Sunsites Medical Clinic; and all other TMC HealthCare subsidiaries except as otherwise noted.</p> <p>For purposes of this Policy, Affiliates do not include Tucson4Health LLC, Southern Arizona Hospital Alliance or TMCH joint ventures with physicians.</p> |
| Statement of Policy: | <p>1. Identifying PHI</p> <p>1.1. Workforce Members treat information meeting the following criteria as PHI:</p> <ul style="list-style-type: none"> (a) The information is created or received by a health care provider, health plan, employer, or health care clearinghouse; (b) The information relates to the past, present, or future physical or mental health or condition of an individual, the provision of health care to an individual, or the past, present, or future payment for the provision of health care; and (c) The information identifies the individual or there is a reasonable basis to believe the information can be used to identify the individual. <p>1.2. Workforce Members treat demographic information received by TMCH or disclosed to TMCH by another health care provider as PHI even if it does not include other information because it reveals that the individual received some type of care.</p> <p>2. Patient Authorization</p> <p>2.1. <i>Obtaining Authorization</i></p> <ul style="list-style-type: none"> (a) Workforce Members do not require a patient to provide an authorization and will not condition treatment on obtaining an |

| | <p>authorization and is not for the use and disclosure of PHI for treatment involved in a research study, in which case the informed consent to participate in the study may be combined with the authorization to use and disclose the PHI for the same or another study. Note, if TMCH conditions the provision of research-related treatment on one of a combined set of authorizations, any compound authorization created must clearly differentiate between the conditioned and unconditioned components and must provide the individual with an opportunity to opt into the research activities described in the unconditioned authorization.</p> <p><i>2.3. Revocation of Authorization</i></p> <ul style="list-style-type: none"> (a) A patient may revoke his or her authorization at any time by submitting a written request to the Health Information Management or Medical Records Department. (b) Upon revocation of a patient's authorization, Workforce Members shall stop using or disclosing the patient's PHI for the purposes covered by the revoked authorization. (c) TMCH retains copies of all patient revocations in the patient's medical record. <p>3. Verification of the Identity and Authority</p> <ul style="list-style-type: none"> 3.1. A minimum of two patient identifiers must be verified whenever interacting with PHI. For example, at least two patient identifiers must be verified when entering PHI into the Electronic Medical Record (EMR) for registration, scheduling, arrival, insurance verification, and other data entry or verification activities. 3.2. A minimum of two patient identifiers must be verified prior to releasing PHI in any form, even when being released directly to the patient himself/herself. 3.3. Workforce Members take reasonable steps to verify the identity and authority of a person requesting PHI before disclosing the PHI to the requestor. Workforce Members document in the patient's medical record all steps taken to verify the identity and authority of |

| | <p>records in order to verify his/her identity. A copy of the driver's license should be made and placed in the patient's record.</p> <p>(b) If the request is received in writing, an attempt will be made to verify the signature of the patient with that contained in the record.</p> <p><i>3.7. Others</i></p> <p>When appropriate, Workforce Members ask any person requesting PHI to produce appropriate documentation to confirm his/her identity.</p> <p>4. Exceptions to Verification of the Identity and Authority of a Requestor</p> <p>4.1. If a Workforce Member knows the person requesting PHI, the Workforce Member is not required to verify identity and authority; however, the Workforce Member must document his/her knowledge of the person's identity and authority in the patient's medical record.</p> <p>4.2. Workforce Members need not verify the identity and authority of a person requesting information from the patient directory (see TMCH policy Use and Disclosure of PHI, CC-02-06).</p> <p>5. Methods to Verify the Identity and Authority of a Requestor</p> <p>Workforce Members may use a variety of verification methods, always confirming a minimum of two identifiers, including but not limited to the following:</p> <p><i>5.1. Verification Methods for Requests Received via Telephone</i></p> <p>(a) Confirm the requestor's phone number with the information in the TMCH directory.</p> <p>(b) Confirm the requestor's phone number with information from a prescription or order form.</p> <p>(c) Confirm the requestor's phone number with the Professional</p> |

| | <p>PHI.</p> <p>(c) Ask the requestor to explain his/her relationship to the patient.</p> <p>6. Safeguarding PHI</p> <p>6.1. TMCH identifies and has in place appropriate administrative, physical, and technical safeguards in order to protect PHI from inappropriate and/or unauthorized Access, use, and disclosure.</p> <p>6.2. Unauthorized individuals are strictly prohibited from entering any clinical or administrative work area. This includes, but is not limited to, patients, visitors, vendors, and any other persons who do not have authorization to be in these locations.</p> <p>6.3. TMCH reasonably safeguards PHI from any intentional or unintentional use or disclosure that violates policy or law.</p> <p>6.4. TMCH complies with the privacy and security standards for the electronic sharing of PHI pursuant to applicable law and regulations.</p> <p>6.5. Workforce Members encrypt all emails containing PHI unless those emails are exclusively transmitted inside of a secure network, such as TMC's secure network. It is best practice to encrypt all emails containing PHI, regardless of the intention for the email to remain within a secure network. If no encryption technology is available for an email containing PHI outside of a secure network, Workforce Members are prohibited from sending PHI through email.</p> <p>6.6. Smart phones and other wireless devices shall be enabled by the TMC I/S Department to Access TMC network email. The TMC I/S Department requires such devices to use adequate security measures to protect the confidentiality of PHI that may be Accessed or stored.</p> <p>6.7. TMCH maintains policies, standards, guidance, and procedures outlining comprehensive administrative, physical, and technical safeguards for electronic PHI.</p> <p>6.8. All facsimiles sent by or on behalf of TMCH are sent with a cover sheet containing a confidentiality statement that addresses the same</p> |
